Delivery included over £1500 excluding Highlands and Islands **All + VAT**

1.2m Balance 'E' showing flared top

Note the stem thickness! WOW!

60/75cm x 80mm Diam. with cane support

NB Balance 'E' Type not recommended for use on conifers — considered too narrow.

60cm Shelters can be supported with 75cm or 90cm 25x25mm stakes placed inside on the windward side of the shelter and stapled through mesh. Length of stake to depends on site exposure and soil depth. **75cm Shelters** need 90cm stakes. **1.2m Shelters** can be supported by one 1.2m or 1.35m 32x32mm stake placed inside shelter and fixed via R36 or R34 Staple Gun in 2 places through mesh.
ie: 2 different stake faces. Stakes should be placed on windward side.

The type of support will depend on individual site conditions and exposure. No liability will be accepted for windblown shelters if secured unsuitably. (Stakes must be no more than 30cm below shelter top when knocked in).

Usage Notes:
Beech planted in Balance shelters should be greater than 40cm height to reduce woolly aphid problems as found with tubes. Red Cedars should not be planted in Balance shelters. Stakes placed inside shelters will need to be removed prior to tree stem rubbing the stake. These shelters have built in vertical weakness and will split vertically in time, but this will depend on UV penetration and sunlight over a number of years, causing degradation of the shelter sidewalls. The removal of shelters should be considered if sufficient degradation of the material has not occurred prior to the stem breakout or damage.

PLEASE VIEW OUR WEBSITE FOR NUMEROUS PHOTOS, SHOWING MATURING TREES GROWING IN OUR FINE MESH SHELTERS!

Plastic Mesh Deer Fencing

Lightweight alternative to traditional wire fencing, excellent for hazel coppice protection and gardens.

- **Beware of softer, flimsier nets!**
- Easier to handle, to cut and stretch
- Recommended where deer populations are high rather than individual shelters. Economic!
- Ideal for glade plantings - wrap around perimeter trees for removal and reuse or in gardens
- Long life UV stabilised polypropylene
- Low Visibility or Extra Strong
- Batten to posts at 2.5m spacing. **Support with 2.4m 60mm stakes (see page 4 stakes).***

LOW VISIBILITY **100M ROLLS**

- **1.8m high, 45 x 50mm mesh**
- Excellent for gardens/glades
- Most economic weight
- **80gms per m², stiffer than other makes!**

1 Roll	3+	5+	10+
£115	£112	£109	POA

EXTRA STRONG

- **1.8m high, 46 x 46mm mesh**
- Flat profile – best for birds & undergrowth
- Heavier weight for use in woodlands
- **115gms per m². Stiffer, stronger**
- **43.75% Heavier than 80gm rivals advertised as heavy duty!**

1 Roll	5+	10+	20+
£189	£183	£171	POA

We can also supply gamekeeping protection net for pens, similar to the low-vis deer fence. Please phone for a quotation. Free Delivery over £1500 excluding Scottish Highlands and Islands All + VAT

*Prestretched for greater strength when manufactured. *For deer farms (or high deer density) use galv deer fence. See page 12

* * * PLEASE SEE OUR REDUCED STAKE PRICES ON PAGE 4 IF BUYING WITH SHELTERS. * * *

Low Long Term Maintenance, No Cutting Off Tubes & Slimy Bark!

Continental Fine Mesh
Economic and Stretchable

TRIED AND TESTED SINCE 1996!

DON'T BE FOOLED BY NON-STRETCHABLE LOOKALIKES! STRETCHED TOPS ARE NEEDED

NEW
1.2m & 1.5m NEW WEIGHT STRONGER VERTICALLY

- **Photodegradable HDPE, will breakdown in sunlight!**
- **Large 120mm diameter preformed polyethylene (140grams/Lm for 60cm & 75cm, 160grams/Lm 1.2m & 1.5m)**
- **Green, flat packed for ease of transport – lower carbon footprint**
- **Better weed control than tubes - herbicide kills weeds within shelter, better v. voles!**
- **Visually pleasant - wind resistant**
- **Bird friendly (songbirds and doormice can climb mesh walls, they can't in tubes!)**
- **Greater ventilation for stronger stems, no water entrapment!**

CONTINENTAL FINE MESH SHELTERS

Ask for reduced price if no gun required. Delivery included over £1500 excluding Highlands and Islands

Photo showing breakdown of Continental Mesh Shelter on a Wild Cherry. Stake in place but no tree damage, mesh swallowed up by grass/undergrowth!

Fixing: Continental 60cm Shelters:
use 2x 3ft 14/16lb or 3ft 16/18lb canes placed inside & secured on one side with our R36 Staple Gun or one 75cm 25x25mm stake placed inside & stapled, but flare/stretch shelter top if this method used.
75cm Shelters: use 2x 3'6" 18/20lb. canes placed inside or 2x 4ft 22/24lb canes or one 90cm 25x25mm stake placed inside, stapled to secure, but flare/stretch shelter top if this method used.

NEW WEIGHT – STRONGER VERTICALLY!

1.2m Continental use 1.2m or 1.35m stakes.
1.5m Continental use 1.5m or 1.8m stakes.

GENERAL NOTE RE: FINE MESH SHELTERS

- We recommend the use of 'Balance' fine mesh shelters with a solid bottom if rabbit density is high, for greater protection.
- Stakes placed inside shelters must be removed prior to stem touching the stake and being damaged.
- These shelters will photodegrade in time, but this will depend on UV penetration and sunlight over a number of years. The shelters will gently stretch once under pressure. If, however, sufficient degradation has not occurred when the net has been stretched to its limit the tree shelter may need to be removed prior to damage to the tree occurring.
- If high populations of deer, especially fallow or red, are known to exist, deer fencing should be considered as an alternative to individual protection. Our shelters will, however, reduce tree damage in the majority of situations.
- In very windy sites, at height, fencing should be used instead of 1.5m continental to avoid abrasion to weak stemmed trees as they emerge from shelters.

Diamond Extra Wide 250mm Diam Shrub Deer Shelters

Prices exclude delivery unless over £1200 excluding Highlands and Islands

EXTRA WIDE DIAMOND MESH
Not including ties.

Quantity	1.2m x 250mm Diam	1.5m x 250mm Diam
100 +	308p	370p
200 +	293p	350p
300 +	284p	338p
500 +	260p	312p
1000 +	Please ask for quotation	

EXTRA WIDE 1.2m and 1.5m can also be used as experimental Deer Shelters for Conifers
These should be considered as experimental protection against deer for conifers, to be used in small numbers where conifer element is required within a primarily broadleaved plantation. Two stakes 1.2m or 1.5m high should be used as supports and placed inside shelter and stapled. **There is a risk of windblow where conifers are protected in this way, but these shelters are not recommended for use in large numbers.**

Green Preformed Shrub & Conifer Shelter Mesh 1.2m

NEW

- Handy to erect
- Wide 480mm Diameter
- 500g/Lm, 13x13mm Mesh allows conifer branches to gain support from mesh walls
- Widely used across Germany for years
- Not suitable for Fallow or Red Deer
- Support with two 1.5m 32/32mm stakes

Anti Bird Tube Net Tops

NEW TO THE UK

It is well known that songbirds can become trapped in tube shelters & die. In the USA tubes are supplied with net tops due to environmental pressure. Use approx. 300mm per tube.

AS USED IN USA!

- UV Stabilised mesh
- Very low cost 2.1p/ea.
- Recommended for 1.2m or taller tubes
- Easy to use, cut off the roll & pull down over tube.

SAVE OUR BIRDS!

£40.00 per 500m roll plus delivery and VAT

£40.25 each + VAT
140/14mm STAPLES
Box 5000 **£25.77**

Quality Bamboo Canes

We import by container direct from China, hence bamboo quality is higher and more consistent in weight than some of our competitors.

Weights of cane for use with our products - will depend on terrain and the wind factor, choose wisely! Please ask for advice!

Pricing: Delivery costs will depend on total order size, and whether shelters are ordered in addition to canes & trees.

All our canes have been fumigated to prevent invasion of foreign insects. Very important for our trees

For orders over 10000 please ask for quote.

Discounted prices if ordering with large numbers of shelters.

Grazers

Effective against deer & rabbits

A well known Bat Willow grower used Grazers 'Agri' at planting, at first trimming in May, and again in September, (another application may have been needed in a wet season) little or no damage to setts was found, whereas previously a large order of mega mesh was required.

- Effective against damage from deer, rabbits, pigeons, and geese
- Safe to use on edible crops including fruit and vegetables
- Not a pesticide therefore safe for wildlife and the environment
- Tried and tested over a number of years, it is a concoction of trace elements
- No apparent smell to humans, but must be unpleasant to deer, as proven by their reaction and lack of damage following application.
- Systemic Action: The product is absorbed through the leaf and repairs and stimulates plant growth
- Also used on agricultural crops and found to be effective against pigeons, rabbits, deer, pheasants and geese
- 4 week spray interval depending on prevailing conditions

GRAZERS 'AMENITY'
1L BOTTLE £32.00
+ VAT + delivery
For knapsack use: 80ml in 20L water and for larger areas a basic application: 1000ml in 250L water per ha.
(Delivery included 4+ bottles)

GRAZERS AGRI '10 ACRE'
1L bottle £80.00
+ VAT + delivery.
A stronger formulation for agriculture used for larger applications: 250ml in 100-250L water per ha. For knapsack use: 20ml in 20L water. Double-rate 500ml in 100-250L if high infestation. (Delivery included 4+ bottles)

Fertiliser for Trees and Christmas Trees

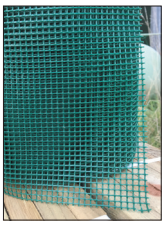

- Yara Mila Complex 12:11:18 SOP + MG + Trace Elements

- Easy to carry holder
- Reduces paint on clothes

£15.84 each + VAT + delivery if without paint

Defender Plus Tube Shelters

- DURABLE twin wall construction manufactured from environmentally responsible and 100% recyclable, UV stabilised polypropylene.
- Built in a radial top lip to minimise abrasion to tree stem.
- Built in shear lines, to encourage shelter to split open as the tree increases in size.
- FLAT PACKED, with unique SLIDE IN STAKE, securing system, tried and tested already for a number of years, no ties needed. Slotted to take 32mm/32mm stake, depending on exposure.
- Easier tree and weed maintenance (tubes can slide up the stake to remove any growth inside the tube).
- V. ECONOMIC compared to the UKs market leader.
- Colour Light Green

Anti-Slip Horsematting

Flexible 'Rubberised' Matting

A flexible, elastomeric polymer blend matting designed for Equestrian Surfaces. The mesh structure and design increases slip resistance. This mesh can be pinned down to grass using plastic pins and the mesh allows the grass to grow through to produce a softer, reinforced, natural looking grass surface. The mesh structure is similar to grass protection mesh.

USES:

- **Equestrian surfaces for stables, walkways, horse boxes, ideal for field shelters and for slippery concrete**

SPECIFICATIONS:

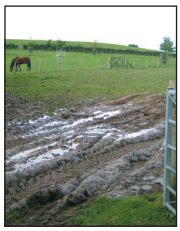

- 2m x 10m Rolls
- 13.5mm Thick Black
- 3.6kg/m² Weight
- 12kn/m Tensile Strength

£390.00 per Roll
Plus Delivery and VAT

Premium Ground Stabilisation Mesh

- Easy to use, Economic and Effective Reinforcement for roads & embankments
- Allows a reduction in Foundation hardcore and gravel when constructing agricultural roadways, forest roads & tracks, car parks, and equestrian use.
- **An ideal solution for consolidation of muddy gateways - especially useful for horses and for general livestock access points.**

BEFORE AFTER

- H D Polyethylene. Black
- 25 metres per roll x 2m width.
- Heavy weight 730 grms/m².
- 8mm x 6 mm mesh size.
- **Premium Weight**

Please note: Our mesh is far heavier and stronger than other similar products.

TORNADO FORCE 12 FENCING

As the first company to introduce high tensile fencing to the UK, Tornado has a well established history supplying the agricultural industry. In fact, they have been experts in wire and wire fencing for more than 30 years, and having begun life as fencing contractors, they really know their stuff. All Tornado fencing is manufactured to BSEN10223 NOTE: Brief advisory notes re. wire types should not be relied on to fulfil purpose as maybe desired! No liability will be accepted for non-performance of wire - notes should be viewed as an aid only!

Carriage paid on orders over £600 - needs hardstanding lorry access. Orders under £600 and less than 20kg £10; over 20kgs £2
